ESTABLISHED 1889-1890

Greetings to Our Customers

We wish to express thanks to our customers for the confidence and patronage we have received in the past, and we anticipate to outdo all our previous efforts in introducing better varieties of our Original Winter Orchid Flowering Sweet Peas.

Our trial grounds this season are the largest we ever have had, and never before have we been better prepared than at the present for the introduction of newer and better Sweet Peas for our ever increasing trade.

A great many Florists and Gardeners do not yet realize that Zvolanek's Winter-Orchid Flowering Sweet Peas that are raised so successfully under glass in the winter, can be, and are raised with equal success out-doors in the early Spring and come into bloom from four to six weeks sooner than late flowering varieties.

We handle only our Original Winter Orchid Flowering Sweet Peas, and they meet with every demand from the Gardener and Florist who is particular in the selection of the very best Sweet Pea Seeds for cut flowers.

Zvolanek's Sweet Pea Seeds are sold in our own packages, not to seedmen in bulk, and each package must bear our Trade Mark to be genuine. Accept no other as genuine or which is claimed just as good.

WARRANTY.

All varieties in this list are true and fixed as represented. Should any mistake occur by us, we will refund the full amount paid for the seed or replace the same, but we will not be responsible for a failure caused by climatic conditions or neglect of the grower. We are interested in your Sweet Peas, even after the seed has germinated, and any questions will be cheerfully answered.

TERMS:

All orders with remittance will be sent prepaid to any part of the Postal Union at 6 per cent. discount. Seed purchased thru agents at agents discount if any. With orders not accompanied by remittance postage will be added, and if party is not known will be sent C. O. D., unless other agreements are made in advance.

Owing to the difference in rates of exchange foreign orders should be accompanied by postal money order or draft. Foreign orders cannot be insured. To insure delivery of all foreign orders, first-class postage should be added, otherwise we cannot be held responsible for delivery.

Most of the varieties will be ready for shipment about July 10th, while novelties will be ready in August.

We thank our many friends and customers for all past favors and respectfully solicit a continuance of the same.

Sincerely yours,

DWARF GROWING WINTER ORCHID FLOWERING SWEET PEAS.

ZVOLANEK'S DWARF DARK PINK—

ZVOLANEK'S DWARF LIGHT PINK—We have introduced these two varieties for about 2 years, and they have found many admirers. While they are not much for cut flower use, they have proven to be valuable as pot plants, as they bloom during the entire winter. They are also very attractive during summer outdoors as a border, or by themselves in beds. They bloom almost all summer until late.

PRICE ON EACH—1 oz. \$2.00.

ZVOLANEK'S MIXTURE—This mixture consists practically of all the best Zvolanek Varieties, Besides some of the new ones not yet introduced. A row of these Sweet Peas are a revelation to every Sweet Pea lover.

PRICE—1 oz. 30c; 4 oz. \$1.00; 1 lb. \$3.00.

Most of the best commercial varieties will be ready to ship about the middle of July. Please send your order early before the big rush, and avoid disappointment. We are usually sold out very early each year, and perhaps of such varieties as you may need. In case of a shortage or failure of crop we will take the liberty of substituting with the best and nearest color, as this list is made out just before the harvest, and we are not yet certain about the crop. If no substitute is wanted mark your order "No Substitute."

Last season we had many requests to make up a special list for private gardeners of large estates, etc., suitable for their needs, and consisting of a quarter of an ounce of each variety. After careful study we have worked out a list of various colors which we think would be suitable.

SPECIAL LIST FOR PRIVATE GARDENERS CONSISTING OF $\frac{1}{4}$ OUNCE EACH.

Gentlemen:—

We want to compliment you very much on the good results we got from the pound of mixed Sweet Pea seed we got from you. We planted some of them in pots and transplanted just about Christmas, and they started blooming a week ago and they are the finest we ever saw. Some stems are 15 inches long. Everyone who sees them are astonished, even the florists and the professors at the Agricultural College here.

Peterborough, Ont., Canada, April 24, 1922.

Ant. C. Zvolanek & Sons,

I received the peas O. K., and have now a few of your "Zvolanek Rose," of which you kindly sent me a sample, blooming in my green-house, and they are the finest and largest blooms I ever grew.

Very respectfully, J. H. CALLANDER.
575 Weller Street.

This is our latest strain of Winter Flowering Sweet Pea. It grows only about 18 inches high; does not climb but creeps just as Verbenas, and is covered with mass of flowers all the time. It is a cross between Zvolanek's Limit and Zvolanek's Cupid. We will have many colors of it probably in 1923.
